

# Visually Connect and Collaborate with Anyone, from Anywhere, on Any Device!

## Easy to use

Schedule, launch or join video meetings online. Host sessions in your own virtual meeting room.

## No hassle setup

Activate endpoints, distribute software clients and set up a virtual meeting room in a matter of minutes.

## Works on any device

Join or host meetings from any standards-based video device including a VC system, PC, Mac, tablet or smart phone.

## Control your costs

No need to invest in additional costly infrastructure or pay for services you don't require.

## Share and collaborate easily

Share information and presentation content with all meeting participants quickly and conveniently.

## Unlimited video calling

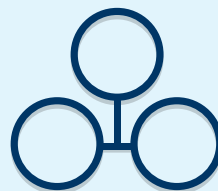

Call as much as you'd like to users both inside and outside your organization.

## Choose a plan that's right for you...
